

Company Profile 2026

German Engineering. AI-native Software. Built in the Philippines.

About Axesscom

Axesscom is an AI-native software engineering company with German roots and a Philippine delivery center. Founded in May 2000 in Gießen, Germany, we have grown through long-term enterprise partnerships rather than quick project turnover.

We are not a classic outsourcing vendor. Axesscom is an engineering company that combines German quality standards with Philippine delivery strength and AI-native thinking. Our clients stay because our dedicated teams understand their business and deliver consistently year after year.

At a glance

25+ years of software engineering experience

10+ years Philippine delivery center (Clark Freeport Zone, since 2016)

50+ engineers in dedicated client teams

20+ years longest client partnership

Offices: Frankfurt (HQ), Eisenhüttenstadt, Clark Freeport Zone
